

## DOES YOUR CONTENT **DIFFERENTIATE** YOU FROM YOUR COMPETITION?

### MAKE YOUR MANUFACTURER PROVIDED CONTENT STAND OUT

Custom digital content is in, cookie cutter content is out! Manufacturer marketing support can be informative but doesn't give you flexibility to customize the message or lead with your differentiators. After all, shouldn't your content differentiate you from your competition? We take a manufacturer provided sell sheet and co-brand it with your message.

#### SIMPLE

Have a sell sheet from your manufacturer that you want to customize? Give us the file and we will recreate the document with your brand and differentiators added.

#### SUPPORTIVE

These documents are perfect leave behinds and aids for your sales team to make sure your company is promoting one consistent message.

#### BRAND RECOGNITION

Today it's more than just adding your logo to a document; being able to add your company bio and differentiators helps to show your audience why you are the partner to trust.

### LEAD WITH **YOUR BRAND**, NOT THE MANUFACTURERS'

Digital content is the foundation for building a strong brand and can be used to generate demand through your website, social media, email correspondence, and customer-facing activities. Our content is created 100% custom for our clients to help drive their brand and message.
